

# AIR

Ah ! the wind on  
my face,its such a  
great feeling.

I cant see  
the wind  
grandpa!

LEARN  
WITH  
COMICS

ha ha, let  
me explain

LEARN  
WITH  
COMICS

Air is all  
around us, but  
we can't see it

What is air?

It's a mixture of different gases. The air in Earth's atmosphere is made up of approximately 78 percent nitrogen and 21 percent oxygen. Air also has small amounts of lots of other gases too such as carbon dioxide, neon, and hydrogen.

LEARN  
WITH  
COMICS

Earth's atmosphere is  
similar to a blanket for our  
planet. It surrounds the  
planet & keeps us warm,

It gives us  
oxygen to  
breathe,

Correct!
